**Green Team Ministry Tips to Share**

We at Chicago Center for Spiritual Living have launched our first ministry, which is "The Green Team. They are dedicated to keeping our Center green as well as spear-heading other community projects, etc.

We have partnered with a wonderful non-profit organization called Live Wisely. One of our projects is to put in our Sunday Program a "Green Tip of the Week". It is a wonderful way to raise consciousness around the very simple things we can do that make a big difference.

If you would like the tips emailed to you so you can add them to your Sunday program, or your newsletter, or whatever, please let me know.

We will be mailing out the upcoming months tips to you in the last week of the prior month. We will send you enough for the entire month so we don't have to send them every week.

Much love to you all!
