

Subject: Survey – IYFM Needs assessment – Rev. Nirvana Gayle

Attached is the survey/questionnaire needs assessment I referred to a bit earlier. We are in the process of redesigning, revamping and developing a new model for the International Youth and Family Ministries. We are in the process of developing new programs, new curriculum, and better services. To do this we need the assistance of everyone who is in service to our youth and has ideas and activities that have worked or you'd like to see tried.

Our aim and intention is to honor what we have done in the past, develop more contemporary ways of meeting the needs of our children and families, as well as be as inclusive as possible in tapping into the rich resources of creative and talented individuals that we have within our movement.

Please take the time to answer this survey, or as much of it that seems important to you, pass copies on to your youth directors or leadership, as well as some of the youth or any other key people whose ideas and insights you feel should be included. Our children are our most valued and cherished assets. They are more than our future, they are our Now! Developing the greater means by which we can best serve our children, assist them in being true to the grand purpose and intention that God has ordained them, and in the process strengthen our families, is the greatest gift we can give.

Thank you all for your fullest cooperation and support. I know that together we can truly develop an International Youth and Family Ministry that we are all proud of and serves the great needs of our children and families in contemporary civilization. Instructions on completing this survey are included below by Marelu Marson. We want to thank and acknowledge Marelu for developing this survey and being the point person on gathering the information, synthesizing and interpreting the feed back that is returned.

All my love,
Rev. Nirvana Reginald Gayle
