

Subject: Youth & Family Ministries – Idea -- New Thought Youth Church Web Site
Submitted by: Ronna Skinner

I just had a brainstorm and I would like to run it by all of you first. I am a web designer and I was thinking of creating and maintaining a New Thought Youth Church web site that has the potential of becoming a valuable resource for us all.

I envision a web site that will be used as a central depository for ideas, crafts, games, activities, lessons, songs, etc. with all of you as contributors. I've created a few crafts and games myself for our Youth Church and I'm sure that all of you have done the same. If we pool our resources, then we'd be helping ourselves and each other.

The contributions have to be original and copyright-free and to not be used commercially for sale. I would have each of you sign up as members with a userid and password and it would be free of charge.

Does a web site such as this already exist? If so, let me know. Otherwise, what do you think? Don't send me your contributions yet. I just want to know if this is a viable project or not. Thank you for your input!

Sincerely,
Ronna Skinner
